EXPERIENCE

Sainsburys   **Crayford, UK**
Online Assistant   **November 2018 - August 2021**

- Provided outstanding customer service, liaising with customers, listening to requirements and effectively managing complaints.
- Trained new colleagues to company's standards on multiple occasions.
- Extremely reliable and flexible, working both day and night shifts.
- Took responsibility and rotated through multiple job roles, including Online Assistant and Sales Assistant, developing relationships and collaborating with colleagues across the store.

TECHNICAL SKILLS

- **Programming:** Competence in Java, Python, HTML, CSS.
- **Operating Systems:** Windows, Linux, MacOs.
- **Hardware & Networking:** Fundamental knowledge of networking; Experience of hardware repairs.

TECHNICAL PROJECTS

Personal Finance Tracker (https://github.com/Eric-Nobrega/EBudget)

- Users are to create and manage personal budgets to improve their spending habits.
- Graphical elements used in order to display information to the user.
- Linked to a database that will securely store user's accounts and figures.
- I plan on adding APIs to make the user's experience more automatic.

Bitcoin Price Bot (https://github.com/Eric-Nobrega/btcPriceBot)

- Created a bot that retrieves the current price of Bitcoin and will display it within a GUI interface. Bot is able to text the user the price of Bitcoin through the use of Telegram.

Interactive City Clock (https://github.com/Eric-Nobrega/Bootcamp-Project-Interactive-Clock)

- City, UoL Bootcamp Project: An interactive GUI clock in which the user can select a city to display the time, effects will be displayed depending on time.

FURTHER SKILLS AND INTERESTS

- **Finance and Investment:** I write a blog in which I go over my finances and my future financial goals and how I plan to achieve these.
- **Languages:** Understanding of the Portuguese language.
